

Report Identification Number: NY-20-048

Prepared by: New York State Office of Children & Family Services

Issue Date: Oct 19, 2020

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 2 month(s)

Jurisdiction: Bronx
Gender: Male

Date of Death: 05/27/2020
Initial Date OCFS Notified: 05/27/2020

Presenting Information

An SCR report was received with concerns the 2-month-old subject child died on 5/27/20 while in the care of the parents. The report stated the mother had begun to change the child's diaper at approximately 8:00AM when he started gasping for breath. Emergency medical services were called and responded to the home. The child was transported to the hospital where he later died. The report alleged the parents had no explanation for the child's death, and the cause of death was unknown and considered suspicious.

Executive Summary

This fatality report concerns the death of a two-month-old male subject child that occurred on 5/27/20. A report was made to the SCR on that same date with allegations of Inadequate Guardianship and DOA/Fatality against the child's mother and father. The Administration for Children's Services (ACS) received the report and investigated the child's death. An autopsy was completed; however, the final report remained pending at the time of this writing.

At the time of the child's death, he resided with his mother, father and 10-year-old sister. The investigation revealed that on the morning of 5/27/20, the child was asleep between the mother and father in their adult bed, when the child began to cry, waking the parents. The mother noticed the child needed to be changed and it was time for his next feeding. The mother brought the child into a separate room to a changing table and began to change the child's diaper. While doing so, the mother noticed the child started to struggle breathing, and mucous was coming out of his nose. The mother yelled for the father to call emergency services, and she began cardiopulmonary resuscitation. The ambulance arrived shortly thereafter and transported the child to the local hospital, where he was pronounced deceased at 9:01AM.

From the time the investigation began to the time of its closure, ACS interviewed family members and pertinent collateral sources. Law enforcement found no criminality on behalf of the mother or father. ACS provided the family with appropriate services referrals in response to the death of the child, including voluntary prevention services to address ongoing needs. ACS found no evidence the parents' actions or inaction caused the death of the child. The investigation was unfounded and closed.

Findings Related to the CPS Investigation of the Fatality

Safety Assessment:

- **Was sufficient information gathered to make the decision recorded on the:**
 - **Approved Initial Safety Assessment?** Yes
 - **Safety assessment due at the time of determination?** Yes

- Was the safety decision on the approved Initial Safety Assessment appropriate? Yes

Determination:

- Was sufficient information gathered to make determination(s) for all allegations as well as any others identified in the course of the investigation? Yes, sufficient information was gathered to determine all allegations.
- Was the determination made by the district to unfound or indicate appropriate? Yes

Explain:

ACS gathered sufficient information to appropriately determine the allegations and assess the safety of the surviving sibling.

Was the decision to close the case appropriate? Yes

Was casework activity commensurate with appropriate and relevant statutory or regulatory requirements? Yes

Was there sufficient documentation of supervisory consultation? Yes, the case record has detail of the consultation.

Explain:

The case record reflected supervisory consultations throughout the investigation. The level of casework activity was commensurate with the case circumstances.

Required Actions Related to the Fatality

Are there Required Actions related to the compliance issue(s)? Yes No

Fatality-Related Information and Investigative Activities

Incident Information

Date of Death: 05/27/2020

Time of Death: 09:01 AM

Time of fatal incident, if different than time of death: 08:00 AM

County where fatality incident occurred: Bronx

Was 911 or local emergency number called? Yes

Time of Call: Unknown

Did EMS respond to the scene? Yes

At time of incident leading to death, had child used alcohol or drugs? No

Child's activity at time of incident:

- Sleeping
- Working
- Driving / Vehicle occupant
- Playing
- Eating
- Unknown
- Other: Diaper change.

Did child have supervision at time of incident leading to death? Yes

At time of incident supervisor was: Not impaired.

Total number of deaths at incident event:

Children ages 0-18: 1

Adults: 0

Household Composition at time of Fatality

Household	Relationship	Role	Gender	Age
Deceased Child's Household	Deceased Child	Alleged Victim	Male	2 Month(s)
Deceased Child's Household	Father	Alleged Perpetrator	Male	28 Year(s)
Deceased Child's Household	Mother	Alleged Perpetrator	Female	22 Year(s)
Deceased Child's Household	Sibling	No Role	Female	10 Year(s)

LDSS Response

On 5/27/20, ACS received the SCR report regarding the death of SC, which occurred on that same date. ACS initiated their investigation within 24 hours and coordinated their efforts with their multidisciplinary team. ACS learned there was one SS and worked promptly to assess her safety.

On 5/27/20, ACS met with the family at their home. SM was interviewed and explained the morning of SC's death, she had fed the child at 5:30AM, and then placed him in bed with her and SF, as they often did, and they all fell back to sleep. SM stated she awoke to SC crying at 7:55AM due to needing a diaper change. SM explained she brought SC into the living room to the changing table and began to change SC's diaper. SM said during such, she noticed SC was "trying to cry," but could not, and white phlegm was coming out of his nose. SM also noticed SC was struggling to breathe, so she used her mouth to remove the phlegm from his nose; however, it did not help. SM reported she panicked and screamed for SF to call 911. SM said she began CPR per the 911 operator's instructions until EMS arrived, and then SC was transported to the hospital. SM explained SC was born prematurely at 27 weeks gestation and was in the NICU for eight weeks following his birth. She stated he was last seen by his pediatrician on 5/5/20 and scheduled to be seen again in June. ACS then interviewed SF regarding the fatality report. SF's account of what occurred corroborated what SM had told the caseworkers. SF stated SC was acting normally prior to the incident. The home was observed to be appropriate with no safety concerns noted.

On this same date, ACS interviewed SS, who reported on the day of the incident, she awoke around 8AM to SM screaming. SS explained SC was not breathing; she witnessed SM performing CPR, then an ambulance arrived. SS stated SC had been coughing and sneezing about one week prior to this but was fine otherwise. SS reported no concerns regarding her safety in the home.

On 6/1/20, ACS completed a forensic interview with SS and followed up with the parents at the CAC. SS' account of events did not change, and SS again reported no safety concerns during the interview. The parents were offered appropriate services, but ultimately declined. The parents did report SC had been congested in the days leading up to his death, and had been utilizing a nasal aspirator to clear mucous as needed. The parents reported the pediatrician was aware of the congestion and advised they keep SC's head at an incline to alleviate symptoms.

Throughout the investigation, ACS spoke with numerous collateral sources and family members. SS was assessed on several occasions and noted to be safe. LE found no criminality on behalf of SM or SF regarding SC's death. Although the

final autopsy report was not yet available, LE informed ACS the ME found SC's lungs to be underdeveloped with air pockets inside and outside of each lung. SC's pediatrician and LE voiced concerns that SC was released too early from the NICU after his birth. ACS found no evidence SC's death was the result of abuse or maltreatment by the parents, and therefore unsubstantiated the allegations.

Official Manner and Cause of Death

Official Manner: Pending

Primary Cause of Death: Pending

Person Declaring Official Manner and Cause of Death: Medical Examiner

Multidisciplinary Investigation/Review

Was the fatality investigation conducted by a Multidisciplinary Team (MDT)? Yes

Comments: This fatality investigation was conducted by the ACS multidisciplinary team.

Was the fatality reviewed by an OCFS approved Child Fatality Review Team? No

Comments: ACS does not have an OCFS approved Child Fatality Review Team.

SCR Fatality Report Summary

Alleged Victim(s)	Alleged Perpetrator(s)	Allegation(s)	Allegation Outcome
055146 - Deceased Child, Male, 2 Mons	055148 - Mother, Female, 22 Year(s)	DOA / Fatality	Unsubstantiated
055146 - Deceased Child, Male, 2 Mons	055148 - Mother, Female, 22 Year(s)	Inadequate Guardianship	Unsubstantiated
055146 - Deceased Child, Male, 2 Mons	055149 - Father, Male, 28 Year(s)	DOA / Fatality	Unsubstantiated
055146 - Deceased Child, Male, 2 Mons	055149 - Father, Male, 28 Year(s)	Inadequate Guardianship	Unsubstantiated

Child Fatality Report

Was there discussion with all parties (youth, other household members, and staff) who were present that day (if nonverbal, observation and comments in case notes)?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Coordination of investigation with law enforcement?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there timely entry of progress notes and other required documentation?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Additional information:

ACS interviewed the family and appropriate collateral sources. Progress notes and other documentation were completed and entered timely.

Fatality Safety Assessment Activities

	Yes	No	N/A	Unable to Determine
Were there any surviving siblings or other children in the household?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there an adequate assessment of impending or immediate danger to surviving siblings/other children in the household named in the report:				
Within 24 hours?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
At 7 days?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
At 30 days?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there an approved Initial Safety Assessment for all surviving siblings/ other children in the household within 24 hours?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are there any safety issues that need to be referred back to the local district?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

When safety factors were present that placed the surviving siblings/other children in the household in impending or immediate danger of serious harm, were the safety interventions, including parent/caretaker actions adequate?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------	--------------------------	-------------------------------------	--------------------------

Fatality Risk Assessment / Risk Assessment Profile

	Yes	No	N/A	Unable to Determine
Was the risk assessment/RAP adequate in this case?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
During the course of the investigation, was sufficient information gathered to assess risk to all surviving siblings/other children in the household?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there an adequate assessment of the family's need for services?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Did the protective factors in this case require the LDSS to file a petition in Family Court at any time during or after the investigation?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Were appropriate/needed services offered in this case	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**Explain:**

ACS offered the family appropriate services in response to the SC's death.

Placement Activities in Response to the Fatality Investigation

	Yes	No	N/A	Unable to Determine
Did the safety factors in the case show the need for the surviving siblings/other children in the household be removed or placed in foster care at any time during this fatality investigation?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Were there surviving children in the household that were removed either as a result of this fatality report / investigation or for reasons unrelated to this fatality?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Explain as necessary:

The SS did not need to be removed as a result of this fatality report.

Legal Activity Related to the Fatality

Was there legal activity as a result of the fatality investigation? There was no legal activity.

Other, specify: Prevention Services

Additional information, if necessary:

ACS provided the parents and with bereavement counseling referrals and information on assistance with funeral costs. Prevention services were discussed, but the family declined.

Were services provided to siblings or other children in the household to address any immediate needs and support their well-being in response to the fatality? Yes

Explain:

ACS provided the family with service referrals in response to SC's death.

Were services provided to parent(s) and other care givers to address any immediate needs related to the fatality? Yes

Explain:

ACS provided the family with service referrals in response to SC's death.

History Prior to the Fatality

Child Information

- Did the child have a history of alleged child abuse/maltreatment? No
- Was the child ever placed outside of the home prior to the death? No
- Were there any siblings ever placed outside of the home prior to this child's death? No
- Was the child acutely ill during the two weeks before death? Yes

Infants Under One Year Old

During pregnancy, mother:

- Had medical complications / infections
- Misused over-the-counter or prescription drugs
- Experienced domestic violence
- Was not noted in the case record to have any of the issues listed
- Had heavy alcohol use
- Smoked tobacco
- Used illicit drugs

Infant was born:

- Drug exposed
- With neither of the issues listed noted in case record
- With fetal alcohol effects or syndrome

CPS - Investigative History Three Years Prior to the Fatality

There is no CPS investigative history in NYS within three years prior to the fatality.

CPS - Investigative History More Than Three Years Prior to the Fatality

There is no CPS investigative history more than three years prior to the fatality.

Known CPS History Outside of NYS

There was no known CPS history outside of New York State.

Legal History Within Three Years Prior to the Fatality

Was there any legal activity within three years prior to the fatality investigation? There was no legal activity

Recommended Action(s)

Are there any recommended actions for local or state administrative or policy changes? Yes No

Are there any recommended prevention activities resulting from the review? Yes No
