

Report Identification Number: NY-21-096

Prepared by: New York City Regional Office

Issue Date: Feb 16, 2022

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Gender: Male

Date of Death: 08/28/2021
Initial Date OCFS Notified: 08/28/2021

Presenting Information

The SCR report alleged the mother put the three-month-old male subject child to sleep in the bed with her at approximately 12:00AM on 8/28/21. At approximately 5:00AM when the mother checked the SC, she noticed the child was face down, not breathing, and with blood on his nose. The mother began chest compressions on the SC; however, he did not respond. The mother called 911. EMS responded and transported the subject child to the hospital where he was pronounced dead at 5:47AM on 8/28/21. The subject child was otherwise healthy, and the mother had no explanation regarding the child's death.

Executive Summary

This fatality report concerns the death of a three-month-old male subject child who died on 8/28/21. As of the writing of this report, NYCRO had not received a copy of the final autopsy report from the Medical Examiner.

At the time of the incident, the subject child resided in the home with his parents. The parents had no other children. The parents rented a bedroom from a family that consisted of the landlord, his mother and two minor children ages 8 and 14 years old. ACS assessed and deemed the children safe with their caregivers.

According to ACS' documentation, the mother fed the subject child at approximately 10:00PM on 8/27/21 and he fell asleep. The mother placed the child in the crib, and two hours later he woke up crying. The mother then placed the subject child in the bed between her and the father. At 5:00AM, she awoke and observed blood on the child's mouth and nose. The mother began CPR and then the father took over while the mother ran to the landlord who then called 911 at 5:09AM. EMS responded and transported the subject child to the hospital where he was pronounced dead at 5:47AM on 8/28/21.

The hospital staff reported the subject child was dead on arrival and there were no signs that indicated maltreatment or abuse of the child.

The ME investigator reported the parents reenacted the incident and there was no suspicion that the parents intentionally harmed the subject child. The ME's preliminary statement noted the subject child's death appeared to be a roll-over; however, the final autopsy was pending. LE found no criminality.

At the time the mother gave birth, she was advised of the dangers of co-sleeping and the father reported he was given a pamphlet on the subject. On the night of the incident, the mother opted to place the subject child in the bed between her and the father. The parents reported the subject child often slept in his crib; however, at other times prior to this incident they had placed the child in bed with them. The parents denied drug and alcohol use, mental health conditions, and domestic violence in the home.

As of the writing of this report ACS had not yet made a determination regarding the allegations of the report.

LDSS Response

Upon receipt of the 8/28/21 SCR report, ACS initiated an investigation by contacting hospital staff, LE, the ME, and the parents.

The hospital staff reported they found no indication of maltreatment or abuse and the SC was dead on arrival. LE found no criminality. The ME's preliminary findings was that the SC's death was an "accidental roll over".

On 8/29/21, the Specialist interviewed the parents separately and there were no discrepancies in their accounts. The parents reported the SC was well and showed no symptoms of illness; they went to the mall on the eve of the incident and upon their return the SC was well. The SM fed the child at 10:00PM on 8/27/21 and placed him to sleep in his crib. At 12:00AM, he cried, and she fed him again and placed him face up to sleep in bed between her and the father, as she did not want him to disturb the neighbors with his crying. At 5:00AM, she awoke and observed the SC face down. When she turned him over, she discovered blood on his face and she felt no pulse. The mother began CPR then father took over the chest compressions as he received training. The mother then alerted the landlord who summoned emergency medical services.

The parents reported the child was a healthy child and he had recently completed a medical assessment with his pediatrician on 8/4/21. The pediatrician confirmed the SC had no medical conditions and his immunizations were up to date. The parents reported the mother provided all care to the child due to the father's work schedule.

ACS contacted the landlord who indicated he was home on the day of the incident and called 911; however, had no other interaction with the parents.

ACS had not made a determination regarding the allegations of the report as of the writing of the OCFS report.
